ACCREDITATION

New Hope CDC is accredited by the National Association for the Education of Young Children. The school and staff are reviewed every three years to meet the high standards of NAEYC.

TEACHERS

New Hope CDC is very proud of its teachers. They are well trained and very dedicated to early childhood education. All are actively involved in continuing education and the latest ideas and techniques in early childhood.

OUR GOAL AND PHILOSOPHY

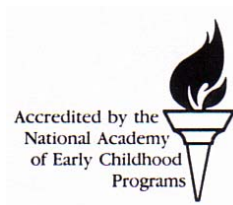

Our goal is to provide a place where children can grow spiritually while they develop basic learning skills, motor coordination and greater self esteem.

We at New Hope CDC believe that children learn best through active play in settings that are designed to facilitate learning. Our teachers have prepared an environment that stimulates and promotes physical, social, cognitive, spiritual, and emotional growth. We believe that a "hands-on" experience is an ideal method of learning. We want your child to enjoy a happy and relaxed atmosphere where he can learn as he plays.
